Dandle ROO™ Lite

Disposable Phototherapy Positioning Aid

The Dandle ROO™ Lite may be used during phototherapy or when a disposable product better meets the needs of the baby.

The ROO Lite may be hand laundered or machine-washed in a gentle cycle. 73% of phototherapy light passes through 1 layer of the 2 oz. cotton wings and pouch.

Dandle WRAP™ Stretch

Dynamic Positioning Aid

A one-piece positioning aid that supports developmental positioning and provides overall containment for the hospitalized baby. Breathable, wickable, 3-way stretch material holds baby in flexion and provides excellent containment for agitated babies.

Dandle PAL™

Neurodevelopmental Support System

A bean-bag positioning aid that provides extra positioning support where and when you need it. The PAL can be used alone, with multiple PALs, or in conjunction with the Dandle ROO2 or Dandle WRAP Stretch. The smaller beanbag at the top provides additional height or support when needed.

Dandle PAL Infant Positioning Aid (one size) with printed cotton fabric

10/case

Dandle•LION Cozy Cub™

Bead Boundary

The Cozy Cub is a pellet-filled boundary that is very helpful for bigger babies or those with special positioning needs. The small internal pellets are fluid and almost feel silky. Unlike more formed boundaries, the Cozy Cub can get into nooks and crannies to provide support exactly where it is needed. Developed originally for ECMO and post-surgical patients, the Cozy Cub can be used for preemies under bili-lights, babies who are more agitated, or any baby who just needs a little 'more.'

The Cozy Cub™:

- Provides containment while allowing full visualization, making it ideal for the ECMO, cardiac or surgical infants
- Allows immediate access to the infant in emergencies
- Loop at one end helps caregiver adjust device to fit any size baby
- Useful for patients with unique or critical positioning needs
- Easily adaptable for use with medical equipment
- Capable of providing calming flexion during transport
- Size: 48" long, 5.5" wide
- Weight: 2340 g.
- Packaged with a cotton cover (Replacement cotton covers and disposable covers available)

Dandle•LION Gel Pillows

Supports Developmental Positioning

Soft and supportive Gel Pillows in 7 sizes support developmental positioning and help to minimize skin breakdown for the hospitalized baby. All Gel Pillows come with covers. Pillows are latex and DEHP free.

Organic Skin Care

Cleanse – Nourish – Defend Organically!

best ever baby®

Industry-leading formulas made from 70% or more organic ingredients, Dandle•LION skin care products – Bubbly Wash, Diaper Balm, Silky Cream and Nurturing Oil – are safe and healthy for all babies. They are clinically tested and proven gentle enough for even the most sensitive developing skin. The ingredients are free of dyes, parabens, phthalates, paraffin, silicone, lanolin and irritating essential oils (all the bad stuff!) and each ingredient was chosen for its benefits to the skin.

Dandle•LION Thermal Hats

Like a Hug for your Head!

The Dandle•LION Thermal Hat helps keep newborns from getting cold after delivery, during procedures, transport and in the OR. The quiet Polyethylene Liner (DEHP and latex free) is encased between two layers of soft yarn so it never touches the baby. The plastic is stitched securely at the top with overlapping side panels that adjust to the size of the baby's head without compromising the thermal barrier.

The Empower Program™

An Education Tool for Parents of Premature Babies

The Empower Program™ is an early intervention, family-centered, multi-sensory, developmental care program for parents of babies born at less than 30 weeks gestation. Designed by both parents and health care professionals at St. Louis Children's Hospital, The Empower Program™ provides families with the knowledge and skills needed to parent their premature baby in the Newborn ICU.

Description: The Empower Program™ consists of 5 components:

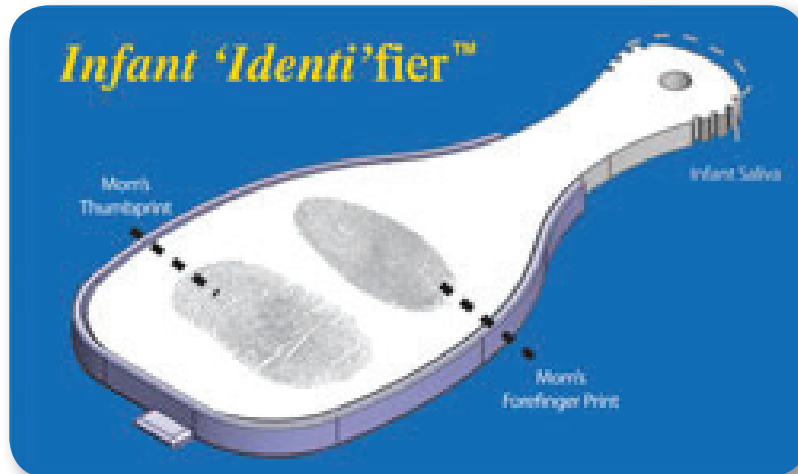

- (1) Master DVD with 3 parts (classroom or system license)
- (1) My Journey In the NICU notebook for families, including a page of NICU specific milestone stickers for the family calendar (additional notebooks and stickers may be purchased)
- (1) CD of all written materials found in the Journey notebook
- (10) DVDs for parents to watch (additional parent DVDs may be purchased for hospitals that wish to give the DVD to the families)
- Staff packet with education on how to administer The Empower Program™ along with written materials to give to families to reinforce the teaching

Infant Identifier

DNA Identification: Peace of Mind for
Parents and Hospital

Be prepared for any emergencies with this quick and easy patient identifier that captures the baby's DNA, the only recommended patient identifier by the Center for Missing and Exploited Children. A necessary safety measure for hospitals in case of an emergency evacuation that can also go home with parents for peace of mind.
